CAREER HIGHLIGHTS

Senior Production Designer
Cinco Design
7 years (2019 – 2026)

Wrote and maintained over 30 automation and project management tools in AppleScript, JavaScript, Python, and AI-assisted Swift for creative and managerial teams.

Built a studio-wide Slack integration, an EA Sports crop-and-export pipeline, and an open-source RGB-to-Pantone web app.

Managed production of thousands of print and digital assets for global retail, outdoor, and digital clients.

Established workflows, file organization strategy, and best practices for most in-house production needs.

Provided production strategy and tooling for novel or difficult studio tasks, and supplemented IT support.

Relevant work: production design management, production strategy, tool development, print & digital media production, video & motion graphics, image retouching

Production Designer
Fiction
6 years (2013 – 2019)

Produced thousands of print and digital assets for retail, outdoor, and digital ad experiences for all 2D brand work in the studio.

Coded custom automation tools to enable timely delivery of print and digital work at high volumes to a global clientele.

Tailored workflows for co-workers to increase their speed and accuracy while reducing overhead.

Traveled regularly to work at Apple with a small in-house production team creating product pre-launch graphics for their US retail market.

Proposed and coded an email signature installation tool for a 3rd-party Apple retailer to distribute to their national offices.

Relevant work: print & digital media production, production automation, video & motion graphics, image retouching, UX & interactive

Contract Designer
Alling Henning Associates Inc.
1 year (2010 – 2011)

Integrated with writers, designers, and project managers to create branded assets for HP and Charles Schwab.

Proposed and designed communication decks, website mockups, and printed collateral.

Graphic Designer
Associated Students of OSU
3 years (2006 – 2009)

Directed and designed print and web graphics for student events across campus, including logos and branding materials for several campus programs, as well as newspaper graphics for *The Daily Barometer*.

Managed printing and signage needs for student body and campus locations and events.

Designed pro-bono marketing materials for two winning student body presidential campaigns.

EDUCATION

Bachelor of Fine Arts, Applied Visual Arts
Oregon State University

Assoc. of Applied Science, Graphic Design
Lane Community College

DEVELOPMENT

AppleScript · JavaScript · Python · HTML · Git · macOS Terminal · Claude Code

SOFTWARE MASTERY

Adobe InDesign
Adobe Photoshop
Adobe Illustrator
Adobe After Effects

SOFTWARE PROFICIENCY

Figma · Google Docs · Microsoft Office · iWork Suite

TECHNICAL PROFICIENCY

image retouching · digital photography · motion graphics · color proofing & prepress · paper & craftwork

INTERESTS

AI and machine learning · 3D printing & product design · rocket science & space travel · mathematics · electronics · music production · audio engineering · writing · photography · video editing · VFX
